ASUS VivoTab™

Data Sheet - **VivoTab TF810C**

Meet Vivo

With a name taken from the Latin verb “to live”, Vivo is designed as a constant companion that blends the familiar elegance of ASUS tablet design with Microsoft Corp.’s new touch-enabled Windows 8 operating system.

Dual-purpose design

Vivo has a dual-purpose design that combines a high-resolution multi-touch Super IPS display with a detachable QWERTY keyboard dock to provide a great Windows 8 experience. ASUS TruVivid technology with Corning® Fit Glass gives improved colour clarity and superior scratch resistance, while the keyboard not only transforms Vivo into a convenient clamshell ultraportable, but also provides a secondary battery for prolonged mains-free use.

11.6” screen

With an 11.6” screen backed by high-precision Wacom digitiser stylus technology, the VivoTab is designed with productivity in mind.

TF810C-1B043W

Operating System	**Windows 8**

Data Sheet - **VivoTab TF600T**

Meet VivoTab RT

The ASUS VivoTab RT has a slim and light profile that's 8.3mm thin and 520g light. It features the NVIDIA® Tegra® 3 quad-core processor and 12-core GPU for outstanding mobile graphics performance, along with 2GB RAM and 64GB eMMC user storage. Supplied with Windows RT, tablet users with entertainment in mind will find a great partner in the VivoTab RT.

Super IPS+ technology

Windows 8 apps, games and movies will look incredible on the VivoTab RT's 10.1" display with 1366 x 768 resolution and IPS technology, while ASUS SonicMaster technology ensures top-quality audio. The VivoTab RT has the same high-quality front and rear cameras as the Vivo Tab too, making it an excellent all-round multimedia performer. It also features a built-in NFC sensor, enabling the device to easily sync with other NFC-enabled devices.

Keyboard Dock (optional)

TF600T-1B028R

Operating System	**Windows RT**

Eee Pad™

Transformer Prime

Data Sheet - Eee Pad Transformer Prime TF201

The world's first Quad-core CPU tablet.

Powered by the world's first Quad-core processor NVIDIA® Tegra® 3, the Transformer Prime browses the web and plays 1080p HD video at blazing speeds. The snappier response time and better multi-tasking performance make the Transformer Prime a true mobile entertainment powerhouse.

Transform to notebook mode with a full QWERTY chiclet keyboard dock and up to 18 hours* of battery life

Admit it! You miss the touch and feel of a real QWERTY keyboard. The Transformer Prime offers you a choice to enjoy both notebook mode and tablet mode with the optional mobile dock.
Multi-Input to Multiply Your Productivity.

Playing games beyond the tablet boundary. Maximum 3D performance.

Advanced water effects, realistic textures and material display, motion blur effects, camera splash effects and all kinds of new 3D effects have been added to the Transformer Prime. It offers superb 3D graphics performance previously unseen on a tablet.

Eee Pad™

Transformer Pad Infinity

Data Sheet - **Transformer Pad Infinity TF700T**

The Fastest NVIDIA® Tegra® 3 CPU Ever

Powered by the fastest NVIDIA® Tegra® 3 4-Plus-1™ chip around, the world's 1st quad-core mobile CPU blazes at 1.6GHz, providing the Transformer Pad Infinity the power to browse the web and play 1080p HD video at lightning fast speeds. The snappier response time and better multi-tasking performance make the Transformer Pad Infinity a true mobile entertainment powerhouse.

Improved Graphics Performance

Designed for the next generation of mobile games. More realism with dynamic lighting, physical effects and high resolution environments.

Incredible Beauty

The metallic spun finished design on the Transformer Pad Infinity showcases technology blended with style. At only 8.5mm thin and 598g light, the Infinity's profile is feather light so you can take it around without being burdened by size or weight.

Superior 8MP rear auto-focus camera with flash

The Transformer Pad Infinity is equipped with the most advanced CMOS sensor and a large F/2.2 aperture.
With the high speed auto-focus and colour enhancement design, it provides 30% better colour enhancement for crisp and vivid colors, allowing the Transformer Pad Infinity to capture a clear and breathtaking image. Provides vivid colours with up to 178° viewable angle and a higher brightness level to easily read and share information.

Data Sheet - *Eee Pad Transformer* TF101 Accessories

Transform to notebook mode with the TF101 mobile docking and get up to 16* hours of battery life

The Transformer sets itself apart from other tablets on the market by featuring an optional keyboard dock called the TF101 mobile docking. This provides access to a full QWERTY keyboard along with unique Android Function keys, turning the Transformer tablet into a full-fledged notebook.

A multi-touch touchpad, 3.5mm audio jack, two USB ports as well as a built-in SD Card reader for easy file sharing and storage expandability makes the Transformer a versatile media hub. The TF101 mobile docking also extends the Transformer's 9.5 hours* of battery life up to 16* hours, so users can use it all day for work and play.

KB Dock: 90-OK06DK10070Y

Interface	Full QWERTY keyboard Touch Pad Unique Android Function Key 2 x USB 2.0 2 x Docking port (Host + Client) 40 pin connector port 1 x Card Reader (MMC/SD/SDHC)
Battery	up to 16 hours (when docked with keyboard) ; 24.4Wh Li-polymer Battery
Dimensions / Weight	271 x 185 x 28mm / 640 g

Not only protects your EeePad, but also works as a stand

The new ASUS Eee Pad Sleeve is designed to fit Eee Pad Transformer TF101 in simple and lightweight elegance, with an interior that uses smooth velvet to protect valuables from scratching and damage.

Sleeve: 90-OK06BG00010-

Device Compatibility	Design For Eee Pad Transformer Only
Colour	Grey
Material	Polyurethane
Dimensions / Weight	230 x 317 x 15 mm (W x D x H) 120g

Adaptor (Travel Kit)
Keep going wherever you are

Adaptor: 90-XB2VOKPW00010Y

Pack Contains	1 x 40-pin to USB cable 1 x Adopter 1 x Plug: EU & UK
Device Compatibility	TF101 / TF101G / SL101 / TF201

*16 hour battery life estimated under certain conditions (when docked with keyboard).

Data Sheet - *Eee Pad Transformer* **TF101 Accessories**

Plug in multi-role utility

At just 15g, adding USB connectivity to the Eee Pad has become breezy easy. Instant plug and play means no setup needed and definitely no driver hassles, as the adapter adds a fast USB 2.0 port so that a huge selection of data, media files and productivity items work flawlessly. Diverse format support ensures complete reliability and smooth operation, while optimization for Android™ Honeycomb enables better flexibility speed. Plus, with its passive design, the adapter puts almost no strain on the Pad's battery, having no effect on charge life or usage duration!

USB Extension Kit: 90-XB2UOKEX00070-

Device Compatibility	EeePad TF101 / TF101G / TF201
Interface	1 x USB 2.0 1 x 40 pin Docking port (male)
Dimensions & Weight	37mm x 32.3mm x 11.7mm, 15g

Plug in multi-role utility

Designed exclusively for the Eee Pad and offering instant plug and play 4-in-1 card reader support to open up new connectivity options. Photos, videos, music files and much more can be easily transferred to the Eee Pad with full support for SD, SDHC, MS and MMC formats. The low profile and light build translate into easy portability – perfect for your high mobility Eee Pad.

Card Reader Extension Kit: 90-XB2UOKEX00030-

Device Compatibility	EeePad TF101 / TF101G / TF201
Interface	1 x 3 in 1 Card Reader (SD, MS, MMC (SDXC) 1 x 40 pin Docking port (male)
Dimensions & Weight	37mm x 32.3mm x 11.7mm, 15g

*16 hour battery life estimated under certain conditions (when docked with keyboard).

- Presents excellent and vivid graphic images, produces 50% better and accurate colour range in a wide viewing angle.

Eee Slate™

Data Sheet - **Eee Slate B121**

ASUS Eee Slate B121 - The world's most powerful tablet device

Windows 7 Professional

Tough touch screen clad in super-strong Corning® Gorilla® Glass

Visually stunning and incredibly tough Corning® Gorilla® Glass provides exceptional damage resistance against the drops, bumps and scrapes of everyday use. It's cool to the touch and cleans easily – making it perfect and highly responsive to enabling even the most sophisticated touch applications. The glass panel is reinforced using an ion exchange process that forms a compression layer on the surface of the glass. This armor prevents damage and flaws, while remaining compliant with the Restriction of Hazardous Substances Directive (RoHS).

Tight TPM security keeps data safe

Professionals can rest assured that their valuable data is protected with the Eee Slate B121's Trusted Platform Module, or TPM, which safeguards confidential data by hardware-encrypting files. This helps defend against attacks by hackers looking to capture passwords and encryption keys to sensitive data. TPM is a widely-recognised industry standard that has achieved a solid reputation in the field of information security and confidentiality.

Eee PC™

Data Sheet - Eee PC™ X101CH

Colourful and light, right at your fingertips

Slim profile and powerful performance

The X101CH was designed to be thin and lightweight, for maximum portability. Boasting a profile that's less than one inch thick and weighing just over one kilogram, it easily slips into bags without adding much bulk. The new Intel® Atom™ Cedar Trail N2600 processor offers almost 3x better graphic performance, supports Full HD video playback, and improves battery life. The fan-less design on the X101CH means zero noise during operation.

Seamless connectivity

With built in 802.11b/g/n Wi-Fi, staying online while on the go has never been easier. You can also easily output video onto your HDTV using the built-in HDMI port on the X101CH. There is also support for Blue-ray 2.0 via external DVD reader/player.

Massive 320GB HDD

Cloud computing for everyone

The X101CH is preloaded with the asus@vibe store, which provides a fun, easy and convenient center filled with rich cloud computing content. ASUS WebStorage online storage is also preloaded so you can easily and seamlessly tap into the power of cloud computing.

Instantly on, always standby ready

Using ASUS' exclusive Super Hybrid Engine II (SHEII) power configuration technology, the X101CH is optimised for performance, while having a battery life up to 4.5 hours. With an instant on resume to Windows in two seconds and long standby time up to a week, you can get back online quicker than ever.

The fan-less design on the X101CH means zero noise during operation.

Seamless connectivity

With built in 802.11b/g/n Wi-Fi, staying online while on the go has never been easier. You can also easily output video onto your HDTV using the built-in HDMI port on the X101CH. There is also support for Blue-ray 2.0 via external DVD reader/player.

Massive 320GB HDD

Cloud computing for everyone

The X101CH is preloaded with the asus@vibe store, which provides a fun, easy and convenient center filled with rich cloud computing content. ASUS WebStorage online storage is also preloaded so you can easily and seamlessly tap into the power of cloud computing.

Instantly on, always standby ready

Using ASUS' exclusive Super Hybrid Engine II (SHEII) power configuration technology, the X101CH is optimised for performance, while having a battery life up to 4.5 hours. With an instant on resume to Windows in two seconds and long standby time up to a week, you can get back online quicker than ever.

Data Sheet - Eee PC™ 1015CX

Slim and Stylish Outlook With All Day Computing Capability

Designed with the Performance to Keep You on the Move

The ASUS EeePC 1015CX, with its 10.1" LED backlit screen (1024x600), features a stylish seashell design that has been taken a step further – with more rounded curves to give it a streamlined shape. The new Intel® Atom™ Cedar Trail N2600 processor offers 3x better graphic performance, supports Full HD video playback, and improves battery life.
The fan-less design on the 1015CX ensures it operates in silence.

No More Waiting – Instant on in Two Seconds

Exclusive ASUS Super Hybrid Engine II (SHE II) with Instant on enables 2-second resume from sleep, with up to 17 days of standby time. SHE II also offers two different power modes, giving you the option to maximise performance or conserve battery life. Built-in data security measures will automatically save and secure your data on the hard drive should the battery level fall below 5%.

Take Comfort

A chiclet keyboard and large touchpad with palm rejection technology ensures an ergonomic typing experience – which means you stay comfortable even after extended periods of use.

Easy Sharing with DLNA and HDMI

With built-in 802.11b/g/n Wi-Fi, staying online while on-the-go has never been easier. With DLNA support, enjoy music, photos, and videos by streaming them to any DLNA compatible devices like flat-panel TVs. Videos can also be viewed on HDTVs through the 1015CX's built-in HDMI port.

Long Battery Life for All Day Computing – 10 Hours Battery Life

The energy-efficient Intel® Atom™ Cedar Trail processor and SHE II technology gives the ASUS EeePC 1015CX up to 10 hours of battery life. You can enjoy all day computing without worrying about the need to recharge.

Massive 320GB HDD

Up to 10 hours* battery life

Data Sheet - Eee PC™ 1225B

Unbelievable HD multimedia experience on the Eee PC™ 1225B

Superior performance with the AMD dual core processor

The latest AMD Brazos dual core processor provides users an unprecedented experience of the all new Accelerated Processing Unit (APU). The APU combines a high performance CPU and discrete GPU giving users the best in multimedia enjoyment. With the super low power consumption that the ASUS 1225B draws, you can have fun anytime, anywhere.

Unbelievable HD multimedia experience

With the embedded ATI Radeon® HD 6290 graphics, the ASUS 1225B provides users the best portable multimedia enjoyment for its size. DirectX® 11 support – exceptional 3D performance allows users to play games and video smoother than ever before. Also, users can enjoy smooth, Full HD 1080p content through the HDMI port to an HD display without any latency. Connect it to a home theater system to enjoy true 7.1 Surround sound playback alongside the Full HD content for the ultimate viewing experience.

Super charge your battery

With Brazos' low power consumption, the ASUS 1225B can provide up to 7 hours*of battery life. Users can enjoy all day computing without worrying about the need to recharge in a few hours.

Stay connected

Stay connected a with built in 802.11b/g/n Wi-Fi. Staying online while on the go has never been easier. With DLNA support, you can enjoy your music, photos, and videos by streaming content to any DLNA compatible devices in your home, such as your flat-panel TV. Wi-Fi Direct is also a few feature that enables you to transfer files wirelessly between the ASUS 1225B and other devices directly, without having to go through a network. This is very convenient for file sharing on-the-go.

Data Sheet - Eee PC ASUS-LAMBORGHINI VX6S

Experience multimedia with the Lamborghini Aventador LP700-4 – inspired Eee PC™ VX6S

Intel® Dual-Core processing power

The Intel® Atom™ D2700 processor has two 2.13GHz cores, each with Hyper-Threading Technology. Its four parallel processing threads provide improved performance with multi-threaded software and faster response times for more demanding applications.

Delivering Multimedia Enjoyment in Droves

The next generation AMD Radeon™ HD 6470M discrete graphics with HD audio controller and DirectX 11 found in the ASUS-AUTOMOBILI Lamborghini VX6S delivers a visual performance never before seen on netbooks. DirectX 11 is more efficient and maximizes the potential of the VX6S' dual-core processor, while at the same time providing support for the latest shading and texturing techniques to deliver vivid, crystal clear HD 1080p videos and life-like images on the VX6S' 12" 1366 x 768 widescreen (16:9) display.

ICEpower®

While the computing is as relentless as the performance of its supercar namesake, the VX6S does not stop there. It envelops users in crystal clear, dynamic audio by Bang & Olufsen ICEpower®, giving the VX6S the capability to reproduce the purest sounds that are faithful to the original recording.

USB 3.0 comes as standard

USB 3.0 can transfer data from compatible devices up to 10 times faster than USB 2.0 and recharge mobile devices in record time, even when the Eee PC VX6 is switched off.

The latest Bluetooth 3.0 support

Full Bluetooth 3.0 support allows low power wireless data transfers from compatible devices at speeds up to 24Mbit/s — perfect for speedy music, video and photo synchronisation with mobile devices.
